# Resident Response

## ***Dear Director of Police Sam Pitassi...***

We are writing this to commend an outstanding officer, Joe Scarpelli.

My husband and I were working on a rain gutter (at ground level) and having a little bit of a problem getting one piece to fit into the downspout. Just a normal home repair project.

Then we hear a voice – “Can I be of help? We turned to see Ofc. Scarpelli pulled alongside the curb and we’re thinking it is a joke. So after a little back and forth conversation, Ofc. Scarpelli got out of his car to offer help. Unbelievable. I didn’t want him to get into trouble. He assured us that this was just helping a resident.

I have never met a more compassionate and caring person. We are so thankful that he is on the staff at the Melrose Park Police Department.

Our sincere thanks to all of you.

• Yours truly,  
Mr and Mrs. Eugene Joseph

## ***Dear American Legion Sarlo-Sharp Post 368...***

On behalf of the residents of Melrose Park, we would like to take this opportunity to thank you for your generous donation and support of the Mayor Serpico/Melrose Park Youth Commission Avenue of Flags initiative. We’re hoping our efforts continue throughout every street in Melrose Park in support of our veterans and the beautification efforts of Mayor Serpico.

• With grateful appreciation,  
The Board and Staff of the Melrose Park Youth Commission

## Manage Your Water Bill Online

The village of Melrose Park is providing residents with a new option to manage their water bill. You can now visit [www.melrosepark.org](http://www.melrosepark.org) to: view your current water bill; review all your present and past bills as far back as 2012; run a water use consumption analysis; view your account history for bills paid and any bill adjustments; and enroll for an eBill statement which will notify you by email that your bill can be viewed online, which avoids any Post Office problems. Important: you still need to pay your water bill by mail, in person, or by clicking on the Pay Water Bill tab found on the right side of the Melrose Park website homepage under the rotating pictures.

Clicking on images at [www.melrosepark.org](http://www.melrosepark.org) as directed will take you to the new online Water Account page. You will need your water account number and the full name of the person listed on the water bill to utilize this new feature. If you do not know your account number, please send an email to [RV@melrosepark.org](mailto:RV@melrosepark.org) and your account number will be sent to you.

## A Note to All Melrose Park Residents Regarding Property Flood Protection, Flood Insurance, Village Assistance

As of Oct. 1, 2015, the Village of Melrose Park has earned a Class 8 Rating through the National Flood Insurance Program (NFIP) Community Rating System (CRS); for this reason, flood insurance policies issued or renewed in the Special Flood Hazard Area (SFHA) qualify for a 10 percent discount off the premium cost.

### Flood Protection Information

The Village of Melrose Park strongly encourages these flood protection tips to be used:

- Stream Maintenance – Per the Clean Water Act and village ordinance, dumping into our ditches, creeks and sewers is strictly prohibited. This regulation helps prevent contamination to our water supply and lessens the chance of flooding. Grass clippings, leaves and branches can also cause problems as they can accumulate and plug the storm sewer channels. If your property is next to a ditch or creek, please do your part and keep the banks clear of brush and debris. Please feel free to contact the Public Works Department for information regarding the Village's Creek Maintenance Program or reporting downed tree and other major blockages.

- Construction Requirements – Always check with the Building Department before you alter, re-grade or fill your property. A permit is needed to ensure that projects do not cause drainage problems to other properties and to ensure the general public welfare.

- Flood-Proofing – There are several different ways to protect a building from flood damage – retrofitting (altering a building to eliminate or reduce flood damage) measures include:

- Elevations – This involves raising the house so that the lowest floor is above protection level.
- Relocation – Moving a building out of the flood zone is the surest way to protect it from a flood.
- Floodwalls – These work to keep water from reaching your home by constructing barriers out of fill or concrete between the building and the flood water.
- Dry Flood-Proofing – Makes the building's walls and floors watertight so water does not enter.
- Wet Flood-Proofing – Modifies the structure and relocates the contents so that when flood water enters the building there is little to no damage.

Important notice: Any alteration to a building or land requires a permit from the Building Department. Even re-grading or filling in the floodplain requires a permit.

### Flood Protection Assistance

If you have any concerns or issues with flooding or drainage, please call the Village of Melrose Park Sewer Department at (708) 531-5347 or the Building Department at (708) 343-4000. The Building Department can provide information, professional input and problem-solving measures without negatively affecting nearby neighbors. The Building Department can also provide a list of flood proofing contractors and conduct inspections.

### Sand Bags

During a rainstorm or flood, sand bags are readily available for pickup at the Melrose Park Public Works Building located at 1002 N. 27th Ave. The Public Works Department also drops off sand bags throughout the village's high impact flood areas.

### Flood Event Suggestions

Please keep in mind, during a flood the less water pumped into the village's storm sewer system the better. Please avoid excessive water use such as washing clothes, showering, washing dishes and toilet flushing. This provides time for the sewer system to stabilize and catch up to the large influx of water, thus, lowering the probability of a sewer backup in a building.

### Be Prepared!

Have a plumber inspect sump pumps regularly!

If you experience flooding or drainage issues on your property, the village's staff may be able to help. Remember to televise and clean sewer laterals to prevent sewer backups.

### Leaf Removal, Street Sweeping, Storm Sewers and Swales

It is a violation of village code and the Clean Water Act to directly or indirectly discharge illicit substances into a storm sewer. The village strongly encourages that all grass clippings, leaves and yard waste be placed in approved containers and placed at the designated location for garbage pickup on scheduled pickup days.

### Community Effort

The Public Works Department kindly requests your help. Throughout the village's corporate boundaries there are many streets with curbside storm sewer catch basins, culverts and storm sewer pipes that are prone to trouble in heavy rains when they are blocked by leaves and grass clippings. The village street sweeping vehicle is not effective in removing large quantities of wet or dry leaves off the streets and curbed areas. The street sweeper's intended use is to remove road debris such as gravel, dirt and trash from the road surface by way of water and scrubbing brushes.

The Public Works Department respectfully asks that every village resident do their part in keeping our storm sewer grates, culvert pipe and swales in front of their property free from leaves and debris throughout the year. By doing this, this will greatly diminish the need for storm sewer cleanups, as well as, eliminating street inlet flooding due to leaves clogging the designed drainage path.

### Flood Insurance

Homeowner's insurance policies do not cover damage from floods. The village strongly encourages property owners to invest in flood insurance. This insurance is backed by the federal government and is available to everyone, even properties that have been flooded. In some cases, flood insurance is required by a bank when people purchase a property and get a mortgage or home improvement loan. These policies typically only cover the building's structure and not its contents. During the types of flooding that occur in your area, there is usually more damage to the furniture and personal items than there is to the structure. Be sure you have contents coverage! Don't wait for the next flood to buy insurance protection! In most cases, there is a 30-day waiting period before NFIP coverage takes effect. Contact your insurance agent for more information on rates and coverage.

**For more information regarding important Melrose Park flood information, please visit our village website at [www.melrosepark.org](http://www.melrosepark.org) and check under the Village Services tab. If you have any questions, comments, or concerns regarding flooding in Melrose Park, please feel free to contact the Building Department at (708) 343-4000, Ext. 4419. Your cooperation is greatly appreciated.**

## West Nile Virus

The Illinois Department of Public Health (IDPH) has confirmed the first West Nile virus positive bird and mosquito batches reported in Illinois for 2012. Although it is a little earlier in the season than we normally find it, it is not unheard of.

Last year 19 counties in Illinois reported a West Nile virus positive mosquito batch, bird and/or human case. A total of 34 Illinois residents contracted West Nile virus disease and three died. No human cases of West Nile virus have been reported so far this year.

Surveillance for West Nile virus in Illinois includes laboratory tests on mosquito batches, dead crows, blue jays, robins and other perching birds, as well as testing sick horses and humans with West Nile-like disease symptoms. People who observe a sick or dying crow, blue jay, robin or other perching bird should contact their local health department, which will determine if the bird will be picked up for testing.

West Nile virus is transmitted through the bite of a mosquito that has picked up the virus by feeding on an infected bird. Common West Nile virus symptoms include fever, nausea, headache and muscle aches. Symptoms may last from a few days to a few weeks. However, four out of five people infected with West Nile virus will not show any symptoms. In rare cases, severe illness including meningitis or encephalitis, or even death, can occur. People older than 50 are at higher risk for severe illness from West Nile Virus.

### Five Common Myths About West Nile Virus

#### **Myth #1: There's not much I can do about West Nile virus.**

Truth: There is a lot that you, personally, can do to reduce your chance of West Nile virus infection.

- Reduce the number of mosquito bites you get. Make a habit of using insect repellent with DEET when outdoors. Spray repellent on exposed skin and clothing. Prime mosquito-biting hours are usually dusk to dawn. Pay special attention to protection during these hours, or avoid being outdoors.
- You can reduce the number of mosquitoes around your home. Mosquitoes breed in standing water, so check your yard once a week: get rid of containers that aren't being used, empty water from flower pots, change water in bird baths and maintain clean gutters.
- Make sure window and door screens are in good condition. Have an older neighbor or family member? See if they need help installing or repairing screens.

#### **Myth #2: Kids are at the most danger of getting sick from West Nile virus.**

Truth: People over 50 are at the highest risk for developing severe West Nile disease.

- Relatively few children have been reported with severe West Nile Virus disease. By contrast, most of the deaths due to WNV during 2002 were among people over 50 years old. Half of those deaths were among people over 77 years old.
- It is always a good idea for children to avoid mosquito bites, but it's also important for adults – especially older adults – to take steps to avoid mosquito bites.

#### **Myth #3: It's only people who are already in poor health who have to worry about West Nile virus.**

Truth: Healthy, active older adults who spend time working and exercising outdoors have been affected by severe West Nile virus infection.

- Being over 50 is a risk factor for developing severe West Nile disease if infected with the virus. There is a risk of getting mosquito bites while leading an active life outdoors. This doesn't mean you have to stay inside – it does mean that it's important to use repellent when you go outside.

#### **Myth #4: Repellents containing DEET are not safe.**

Truth: Repellents containing DEET are very safe when used according to directions.

- Because DEET is so widely used, a great deal of testing has been done. When manufacturers seek registration with the US Environmental Protection Agency (EPA) for products such as DEET, laboratory testing regarding both short-term and long-term health effects must be carried out.
- There are products with different strengths (percentage of DEET) available. The longer the protection you need the higher percent of DEET needed.
- Repellent with DEET can be used for both adults and children, according to directions

#### **Myth #5: As long as my area has a mosquito control program, I don't have to worry about using repellent.**

Truth: Mosquito control activities don't eliminate every mosquito, so personal protection is still important.

- Public activities, such as using products to kill mosquito larvae and adult mosquitoes, are one part of control. Personal protection, such as using repellent, keeping window screens in good condition, and control of household breeding sites are other important steps.
- Collaboration between the community, the family and the individual is needed to achieve the best prevention of West Nile virus infection.

# West Nile Virus Facts

## What is West Nile Virus?

West Nile virus (WNV) is a potentially serious illness. Experts believe WNV is established as a seasonal epidemic in North America that flares up in the summer and continues into the fall. This fact sheet contains important information that can help you recognize and prevent West Nile virus.

## What Can I do to Prevent WNV?

The easiest and best way to avoid WNV is to prevent mosquito bites.

- When you are outdoors, use insect repellents containing an EPA-registered insect repellent. Follow the directions on the package.
- Many mosquitoes are most active at dusk and dawn. Be sure to use insect repellent and wear long sleeves and pants at these times or consider staying indoors during these hours.
- Make sure you have good screens on your windows and doors to keep mosquitoes out.
- Get rid of mosquito breeding sites by emptying standing water from flower pots, buckets and barrels. Change the water in pet dishes and replace the water in bird baths weekly. Drill holes in tire swings so water drains out. Keep children's wading pools empty and on their sides when they aren't being used.

## What Are the Symptoms of WNV?

- Serious Symptoms in a Few People – About one in 150 people infected with WNV will develop severe illness. The severe symptoms can include high fever, headache, neck stiffness, stupor, disorientation, coma, tremors, convulsions, muscle weakness, vision loss, numbness and paralysis. These symptoms may last several weeks, and neurological effects may be permanent.
- Milder Symptoms in Some People – Up to 20 percent of the people who become infected will display symptoms which can include fever, headache, and body aches, nausea, vomiting, and sometimes swollen lymph glands or a skin rash on the chest, stomach and back. Symptoms can last for as short as a few days, though even healthy people have been sick for several weeks.
- No Symptoms in Most People – Approximately 80 percent of people (about four out of five) who are infected with WNV will not show any symptoms at all, but there is no way to know in advance if you will develop an illness or not.

## How Does West Nile Virus Spread?

- Infected Mosquitoes – Most often, WNV is spread by the bite of an infected mosquito. Mosquitoes become infected when they feed on infected birds. Infected mosquitoes can then spread WNV to humans and other animals when they bite.
- Transfusions, Transplants and Mother-to-Child – In a very small number of cases, WNV also has been spread through blood transfusions, organ transplants, breastfeeding and even during pregnancy from mother to baby.
- Not through touching. WNV is not spread through casual contact such as touching or kissing a person with the virus.

## How Soon Do Infected People Get Sick?

People typically develop symptoms between three and 14 days after they are bitten by the infected mosquito.

## How Is WNV Infection Treated?

There is no specific treatment for WNV infection. In cases with milder symptoms, people experience symptoms such as fever and aches that pass on their own, although illness may last weeks to months even in healthy persons. In more severe cases, people usually need to go to the hospital where they can receive supportive treatment including intravenous fluids, help with breathing, and nursing care.

## What Should I Do if I Think I Have WNV?

Milder WNV illness improves on its own, and people do not necessarily need to seek medical attention for this infection though they may choose to do so. If you develop symptoms of severe WNV illness, such as unusually severe headaches or confusion, seek medical attention immediately. Severe WNV illness usually requires hospitalization. Pregnant women and nursing mothers are encouraged to talk to their doctor if they develop symptoms that could be WNV.

## What is the Risk of Getting Sick from WNV?

- People Over 50 at Higher Risk to Get Severe Illness – People over the age of 50 are more likely to develop serious symptoms of WNV if they do get sick and should take special care to avoid mosquito bites.
- Being Outside Means You're at Risk – The more time you're outdoors, the more time you could be bitten by an infected mosquito. Pay attention to avoiding mosquito bites if you spend a lot of time outside, either working or playing.
- Risk Through Medical Procedures is Very Low – All donated blood is checked for WNV before being used. The risk of getting WNV through blood transfusions and organ transplants is very small, and should not prevent people who need surgery from having it. If you have concerns, talk to your doctor.
- Pregnancy and Nursing do not Increase Risk of Becoming Infected with WNV – The risk that WNV may present to a fetus or an infant infected through breastmilk is still being evaluated. Talk with your care provider if you have concerns.

## What is the CDC Doing About WNV?

CDC is working with state and local health departments, the Food and Drug Administration and other government agencies, as well as private industry, to prepare for and prevent new cases of WNV. Some things CDC is doing include:

- Coordinating a nationwide electronic database where states share information about WNV.
- Helping states develop and carry out improved mosquito prevention and control programs.
- Developing better, faster tests to detect and diagnose WNV.
- Creating new education tools and programs for the media, the public, and health professionals.
- Opening new testing laboratories for WNV.
- Working with partners to develop vaccines.

## What Else Should I Know?

If you find a dead bird don't handle the body with your bare hands. Contact the Health Department at (708) 343-4000, for instructions on reporting and disposing of the body. They may tell you to dispose of the bird after they log your report.

# National Italian American Sports Hall of Fame Announces 2019 Inductees and Honorees Ralph "Babe" Serpico Selected for Recognition on Nov. 9

The National Italian American Sports Hall of Fame (NIASHF) is proud to announce inductees and honorees for the 42nd Annual Induction & Awards Gala to take place at a dinner on Saturday, Nov. 9, in the Grand Ballroom at the Westin O'Hare in Rosemont, Ill. Many previous inductees, members of the media and individuals of the sports world will be in attendance.

For the first time in the history of the NIASHF, a Lifetime Achievement Award will be presented to 1981 inductee, Mario Andretti. This prestigious award will bare his name to all who are selected for this honor in the future.

The Mario Andretti Lifetime Achievement Award is established as one of the highest awards an individual can receive from the NIASHF. It will be presented to a person who is a legend in their field, embodies the NIASHF values of Family, Friends, Faith and Community, and whose character, leadership and charitable efforts are comparable to those of Mario Andretti's.

The NIASHF Class of 2019 inductees include Glenn Carano, Alexis DeJoria and posthumously Ralph "Babe" Serpico. Dominic Stramaglia will be honored as the Sportsman of the Year.

Ralph "Babe" Serpico, a native of Melrose Park, IL, was a four-year letterman guard for the University of Illinois from 1943 through 1947. His son, Mayor Ron Serpico, will be accepting on behalf of his father, "I was privileged every day to witness the very qualities that his University of Illinois football coaches and teammates saw in him as their captain. He would be more than humbled to be included in the National Italian American Sports Hall of Fame alongside his heroes Joe DiMaggio, Rocky Marciano and Vince Lombardi. On behalf of my father and the entire Ralph "Babe" Serpico family, thank you for this great honor."

Glenn Carano, Super Bowl XII champion, played seven seasons as quarterback with the Dallas Cowboys. Before being drafted to the Cowboys in 1977, Carano played college football at the University of Nevada, Las Vegas (UNLV), where he became a four-year starter as a quarterback, while setting almost all the school's passing records.

Alexis DeJoria is a former American NHRA champion who has won in each the Super Comp, Top Alcohol Funny Car and Funny Car classes. Eight months after her NHRA debut, she went on to win the Sportsman Nationals. At the 2014 U.S. Nationals in Indianapolis, NHRA's crown jewel, she drove her Tequila Patron Toyota Funny Car dragster to the championship, beating legend John Force in the finals. Her time for 1,000 feet of asphalt – 4.038 seconds with a top speed just north of 310 mph.

Dominic Stramaglia will be honored as the 2019 Michael J. Roarty Sportsman of the Year, an award given to a business leader who is continually giving back to the community in never-ending support to charities and other humanitarian causes. Stramaglia is founder of Supreme Lobster and Seafood, a leading regional and national wholesale seafood distributor. His philanthropic dedication to the Italian community and charitable causes resulted in a unanimous selection as the recipient of this year's award.

Ralph "Babe" Serpico

***"Ralph "Babe" Serpico, was a football hero, a community leader and a good Samaritan; but his most important role was that as a father. I was privileged every day to witness the very qualities that his University of Illinois football coaches and teammates saw in him as their captain. He would be more than humbled to be included in the National Italian American Sports Hall of Fame alongside his heroes Joe DiMaggio, Rocky Marciano and Vince Lombardi. On behalf of my father and the entire Ralph "Babe" Serpico family, thank you for this great honor."***

# Welcome to the 2019 Taste of Melrose Park

## Celebrating Our 38th Year!

If you enjoy a smorgasbord of delicious homemade food, rocking out to great local bands, and are closely watching the family pocketbook, you have come to the right place ... the 38th annual Taste of Melrose Park.

The Taste of Melrose Park has twice as many food vendors than the Taste of Chicago, and more importantly, all food items cost a mere \$3 or less. Besides our affordable food prices, all our entertainment is free, parking is free, the trolley service is free, and a great time shared with family and friends is not only free, it's guaranteed!

The Taste of Melrose Park is dedicated to providing a safe and fun atmosphere for kids of all ages, 1 to 100. Most of our food booths are operated by Melrose Park families who are committed to treating every "Taste" patron as part of their extended family.

This year's "Taste" features more than 60 one-of-a-kind ethnic food items. We also provide continuous multicultural entertainment programs and venues that will delight one and all.

Please visit our Beer and Wine Tent where all the net proceeds are deposited into the "Melrose Park Sports and Family Benefit Fund." Due to your past generosity, this fund raised over \$1.5 million, which was donated to local civic groups, charities, schools and youth organizations.

At this point, we must admit to one little problem that everyone strolling the "Taste" grounds seems to encounter, and that is the, "I'm So Full I Can't Eat Another Bite Dilemma!" When this condition occurs we recommend resting your palate by sampling the entertainment offerings on any of our four stages. Just about the time that you've had your fill of great entertainment, you should be ready to sample more of the best epicurean delights found at any food fest in the country.

And let it be known that we could not even attempt to host such a large event without the financial assistance of our fabulous business community or without the 500 plus volunteers who are responsible for making the Taste of Melrose Park run so smoothly.

Lastly, it is due to your overwhelming positive response to our philosophy of treating all fest goers as part of the family that makes the Taste of Melrose Park the most friendly and affordable food festival in all of Illinois.

Bon Appetit!,

  
Mayor Ron Serpico

## New Grants Mean Expanded Services for Triton Students and Community Members

From new partnerships that will help people get good jobs – to summer camps that will inspire young students, new grant funding will allow Triton College to serve our communities in new and exciting ways. Triton recently received four grants totaling more than a quarter million dollars, which will create exciting and impactful opportunities for students and community members.

### Highlights of the Awards

#### **AmeriCorps State Grant (\$179,131)**

This grant will allow more than 70 volunteers to provide mentoring, coaching and tutoring to low-income students. The program is designed to

Students will also benefit from the 'Business English' component, which focuses on task-based and skills-based activities to help them develop oral and written fluency, which will help them gain employment. Students will also receive in-depth career coaching that will help them develop resumes and cover letters, as well as improve job search and interview skills. Funded by the Illinois Community College Board's Innovative Bridge and Transitions Program.

Camp GADgET (Girls Adventuring in Design, Engineering and Technology) introduces participants to the world of manufacturing through hands-on projects and site visits to local women-owned manufacturing facilities.

New this summer, GLOW (Girls Learning to Weld) will spark creativity and build skills as campers try their hand at welding. ## Carreno Participates in 'Pop-Up Piano' Project

Melrose Park resident Diana Carreno is one of eight student artists who participated in the 'Pop-Up Piano' project, the latest installment of the Rosemont Mural Initiative. Eight custom painted upright pianos are currently on display in public spaces throughout the village of Rosemont.

Carreno, who is studying web development and design at Triton College, created a piano with red roses in full bloom sitting atop the pink background, framed by a maze of green vines. The instrument sits in the lobby of the Rosemont Senior Center.

"I hope it brings a little more light into their life," she said.

Three other Triton students and four Oakton Community College students participated in the project. They worked under the mentorship of internationally recognized, award-winning muralist Rahmaan Statik.

## Senior Citizen Law Enforcement Academy Comes to Triton

Cook County Sheriff Thomas J. Dart and Triton's RSVP Volunteer Program invite all west suburban senior citizens interested in law enforcement and crime awareness issues to enroll in the Senior Citizen Law Enforcement Academy to be held at Triton College in the Robert M. Collins Center beginning Monday, Oct. 21.

The Sheriff's Office designed the program to open the lines of communication between senior citizens and law enforcement officials. Participants will gain a better understanding of the responsibilities and duties of law enforcement officials as well as receive advice on personal safety and crime prevention.

"Seniors of today are active, educated and concerned, and in my opinion, are one of our country's greatest resources," Dart said. "This program will attempt to unite the senior citizen community more closely with law enforcement for our mutual benefit."

Dart's top staff members will conduct the six-session academy. Each speaker provides pertinent information on an array of topics, including crimes against seniors, gang and drug awareness, understanding the role of the sheriff in the criminal justice system, overview of alternative sentencing programs and functions of the Cook County Jail.

The academy classes meet Mondays from 10 a.m. to noon through Dec. 2 when all participants will be presented with certificates of completion and honored at a graduation ceremony and reception.

The program is free of charge to all senior citizens living in Cook County.

For more information on the program or to register for the Senior Citizen Law Enforcement Academy at Triton, call the RSVP Office at (708) 456-0300, Ext. 3603.

# Scudiero's Bakery & Italian Deli Receives the Illinois Made Award

Each year the State of Illinois Office of Tourism selects artisans, makers and businesses to be featured as part of the Illinois Made makers program. Makers, creators, artisans of Illinois are the craftspeople, artists, family-owned businesses, small-batch breweries, distilleries, foodies and farmers that make Illinois thrive. Makers exemplify what it means to be a local artisan offering a one-of-a-kind experience that can be found in communities across the state.

This year, Scudiero's Bakery & Italian Deli was selected as a maker in the Illinois Made Program. Scudiero's has been serving the Melrose Park community and surrounding areas for more than 65 years with their homemade Italian foods. Scudiero's continues to shape the culture and contributes to making a positive impact on the local economy.

Scudiero's Italian Bakery & Deli, originally called the Melrose Park Italian Bakery, opened in 1954 by Italian immigrant, Umbaldo Datoli. Prior to coming to America, Datoli was a third-generation baker running a bakery in Serino, Italy, and he used his grandfather's recipes to make the best homemade Italian breads. Datoli brought his bread-making skills and love for Italian food to Melrose Park. He helped establish the bakery and Italian grocery store that has been serving up some of the finest Italian delicacies in the area. Datoli's daughter Lena and her husband, Joe Scudiero, eventually took over the bakery operations and later changed the name to Scudiero's Italian Bakery.

Today, through the hard work of the generations of the Scudiero family, the bakery remains one of the community icons and culinary experiences that is truly a celebration of the Italian food culture. The bakery is run by all six of the Scudiero brothers and they continue baking the same famous Italian bread that has been served to families for many years. The Scudiero's continue to keep traditions alive serving up Italian foods like subs, sandwiches, paninis, pizzas, panzerotti and other items that bring a taste of Italy to home.

## Willis-Backed Measure Aimed at Lowering Property Taxes Signed into Law

A proposal aimed at curbing skyrocketing property taxes backed by state Rep. Kathleen Willis, D-Northlake, was recently signed into law.

"Families are being forced out of their homes as property taxes have continued to rise in our community," Willis said. "Middle-class families need property tax relief now and this new law takes action by creating a fund that offers relief directly to taxpayers."

Willis supported Senate Bill 39, which was recently signed into law by Gov. J.B. Pritzker to establish an Illinois Property Tax Relief Fund. The fund would allow property tax rebates to be provided to homeowners claiming a general homestead exemption. Additionally, Willis supported legislation to create a Property Tax Relief Task Force charged with reviewing best practices and providing recommendations by the end of the year on how to tackle high property tax rates in Illinois.

"This proposal is a good first step, but we must remain vigilant and look at long-term reforms that will reverse the years-long trend of increased property taxes," Willis said. "I look forward to working with the bipartisan Property Tax Relief Task Force so we can deliver tangible savings to homeowners across Illinois."

## Trivia Answers from Mayor Serpico's Letter on Page 1

Question 1 answer is d) Paris – Gelato is credited to the Italian chef Francesco Procopio dei Coltelli who in the late 1600s opened his "Café Procope" in Paris. Thanks to his gelato, Procopio not only obtained French citizenship, but also got an exclusive royal license issued by the Sun King Louis XIV, making him at the time the sole producer of the frozen dessert in the kingdom.

Question 2 answer is b) Little orange – The name is translated as "little orange," derived from its shape and color which, after cooking, is reminiscent of an orange.

Question 3 answer is b) False – Most historians agree that ceviche originated during colonial times in the area of present-day Peru. The dish was brought to Peru by Moorish women from Granada who accompanied the Spanish conquistadors, it eventually evolved into what nowadays is considered ceviche.

Question 4 answer is c) Thomas Jefferson – The classic American mac & cheese began with Thomas Jefferson upon his return from Italy. Jefferson brought back a pasta machine from Italy which his daughter Mary Randolph used to invent the dish.

Question 5 answer is a) 92 lbs is the largest pierogi recorded.

Question 6 answer is d) Mortadella – Baloney is an American food whose lineage can be traced to Mortadella which was popularized in the Italian town of Bologna. Americans had to come up with a name for their version of Mortadella, so they changed this Bologna cold cut to Baloney.

Question 7 answer is c) Italian beef sandwiches originated with workers in the Chicago Stockyards who would bring home some of the tougher, less desirable cuts of beef sold by the company. To make the meat more palatable, it was slow-roasted to make it more tender, then slow-simmered in a broth of Italian spices and herbs. The meat was then thinly sliced across the grain and stuffed into fresh Italian bread.

Question 8 answer is a) Belly – The noun panzerotto comes from a diminutive of panza, a regional variation of Italian pancia ("belly, tummy"), referring to the distinctive swelling of the pastry which resembles a bloated belly.

Question 9 answer is b) Africa – where the original version of Horchata was brewed from nuts starting around 1000 AD. It was brought to Spain during that country's conquest by the Muslims around 1300 AD after which the Spanish explorers brought the drink with them to the New World.

Question 10 answer is c) Fairy Floss – Machine-spun cotton candy was introduced at the 1904 World's Fair as "Fairy Floss" with great success. Joseph Lascaux, a dentist, invented a similar cotton candy machine in 1921. The Lascaux U.S. patent named the sweet confection "cotton candy" and the "fairy floss" name faded away.

## Best Buy Ranks Seventh on *Forbes* List of Best Employers for Women

Best Buy is proud to be named No. 7 on the recently released *Forbes* list of America's Best Employers for Women. Best Buy is one of two retailers in the top 10.

It's a sign of our commitment to gender equality. In fact, we have a number of high-ranking women in leadership, including CEO Corie Barry; Kamy Scarlett, chief human resources officer and president of U.S. retail; Trish Walker, president of Home and Services; Allison Peterson, chief Customer and Marketing officer; and more than half of our board of directors. Earlier this year, we signed the ParityPledge™, committing to interview at least one qualified female candidate for all open positions at the vice president level and above.

"We are thrilled to be recognized by *Forbes* as a best employer for women," Kamy said. "This is especially meaningful as the rating is based on feedback from our own employees. We work hard to ensure Best Buy's culture fosters inclusion, and this is a great indication of our success in this regard."

Best Buy also hosts an active Women's Employee Resource Group, which promotes networking, development and leadership opportunities for female employees. The company also recently added several benefits based on employee feedback, including paid caregiver leave and adoption assistance.

The ranking is based on an independent survey by *Forbes* and Statista of more than 40,000 women. Respondents were asked to rate the company they work for and peer companies based on topics such as development, salary, benefits, diversity and the likelihood of recommending their employer.

The Best Buy logo is shown in a white box with a black border. It consists of the words "BEST" and "BUY" stacked vertically in a bold, sans-serif font. A small yellow price tag icon is positioned to the right of the word "BUY".
