INDEPENDENT AUDITORS' REPORT

February 1, 2022

The Honorable Mayor Members of the Board of Trustees Village of Melrose Park, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Melrose Park, Illinois, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Village of Melrose Park, Illinois February 1, 2022 Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Melrose Park, Illinois, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Melrose Park, Illinois' basic financial statements. The combining and individual fund financial statements and schedules and other information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and other information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and other information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Lauterbach & Amen, LLP
LAUTERBACH & AMEN, LLP

Management's discussion and analysis of the Village of Melrose Park's (the "Village") financial performance is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify the Village's financial position and ability to address future challenges, (4) identify material deviations from budget, and (5) identify concerns specific to individual funds.

Financial Highlights

At December 31, 2020, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$143.0 million (net position) compared to liabilities and deferred inflows of resources exceeding assets and deferred outflows of resources by \$152.0 million in the prior year (after restatement).

The increase in net position from the prior year is mostly due to an increase in the cash balances of \$7.5 million, \$6 million of which is from the 2020 bond proceeds.

The Village's governmental funds reported combined fund balance at December 31, 2020 of \$48.1 million, an increase of \$41.5 million from the prior year. Most of the increase is due to a \$36.9 million transfer in from the water and sewer fund due to a loan forgiveness. \$6 million of the increase is a result of proceeds from a bond issue.

General revenues accounted for \$51.4 million in revenue or 87% of all governmental activity revenues. Program specific revenues accounted for \$8.0 million or 13% of total governmental revenues.

The Village had \$49.5 million in expenses related to governmental activities.

Reporting the Village as a Whole

Government-wide Financial Statements

The Village's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Village's overall financial status. Financial reporting at this level uses accounting similar to full accrual accounting used in the private sector. Interfund activity is eliminated and the cost of assets with a long service life is spread out over future years so that capital expenditures are amortized (through depreciation) when the benefits are realized.

The first government-wide statement is the Statement of Net Position that presents information about all of the Village's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over a multi-year period, an increase or decrease in net position can detect an improvement or deterioration in the financial position of the Village as a whole. Additionally, one would need to evaluate non-financial factors, such as the condition of Village infrastructure, the satisfaction of constituents, and other information beyond the scope of this report to make a more complete assessment of whether the Village as a whole has improved. As prescribed in GASB 34, the Village has implemented all infrastructure into its capital assets. Infrastructure assets include roads, sidewalks traffic signals, etc. These infrastructure assets are the largest asset class of the Village.

The second government-wide statement is the Statement of Activities, which reports how the Village's net position changed during the current fiscal year. All current year revenues and expenses are included

regardless of when the cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the Village's distinct activities or functions on revenues provided by the Village's taxpayers.

Both government-wide financial statements distinguish governmental activities of the Village that are principally supported by taxes and intergovernmental revenues (such as state shared revenues) from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, public works and public welfare. Business-type activities include water and sewer utilities. Fiduciary activities, such as employee pension plans, are not available to fund Village programs and therefore are not included in the government-wide statements.

The Village's financial reporting includes the funds of the Village (primary government). The Melrose Park Public Library is included as a "component unit", and therefore, adjustments were made to blend financial information from this separate entity into this report.

The government-wide financial statements are presented on pages 12-13 of this report.

The following table provides a summary of the Village's changes in net position:

Financial Analysis of the Government-Wide Statements

For governmental activities, total revenue increased by \$1.0 million and total expenses increased by \$4.0 million, respectively, from the prior year. Significant increases for revenues included property taxes increasing by \$1.8 million, operating grants increasing by \$1.4 million, and miscellaneous revenue increasing by \$0.7 million. These increases were offset by the decrease in program revenues decreasing by \$2.4 million. Highway and street expenditures increased by \$4.4 million due to numerous street projects occurring in 2020. This was offset by a decrease in public safety expenditures of \$2.2 million. At year-end, the governmental activities experienced a gain of \$46.7 million compared to the prior year gain of \$13.0 million, largely due to the \$36.9 million loan forgiveness transfer from business-type activities.

Governmental Revenues by Source

Government Expenses by Function

Business-type activities revenues experienced a slight decrease of \$0.1 million while expenses experienced an increase of \$3.0 million compared to the prior year.

For governmental activities, current and other assets increased by \$42.3 million from the prior year primarily as a result of a transfer of \$36.9 million from business-type activities. Another reason for the increase is due to \$6.0 million is bond proceeds.

Reporting The Village's Most Significant Funds

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Village uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Village's most significant funds rather than the Village as a whole. Major funds (the General Fund and the Debt Service Fund) are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The Village has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental fund and governmental activities.

Budgetary comparison schedules are included as required supplementary information for the General Fund. Budgetary comparison schedules for the Water and Sewer Fund can be found in a later section of this report. These statements and schedules demonstrate compliance with the Village's budget.

The basic governmental fund financial statements are presented on pages 14-17 of this report.

Proprietary funds reported in the fund financial statements are for those services for which the Village charges customers a fee, otherwise known as enterprise funds. These funds essentially encompass the same functions reported as business-type activities in the government-wide statements. The Village's proprietary funds present the activities and balances in the Water and Sewer Fund, which is considered to be a major fund, using the accrual basis of accounting and economic resources measurement focus.

Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements, but with more detail for major enterprise funds.

The basic proprietary fund financial statements are presented on pages 18-20 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the Village. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

The basic fiduciary fund financial statements are presented on pages 21-22 of this report.

Notes to the financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 23 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's contributions and funding progress of the Illinois Municipal Retirement Fund, Police Pension Fund, Firefighters' Pension Fund and the Retiree Health Plan as well as budget to actual comparisons of the funds.

Major funds and component units are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 102.

Financial Analysis of the Village's Funds

Governmental Funds

As discussed, governmental funds are reported in the fund statement with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$48.1 million, up \$41.5 million from the prior year total of \$6.5 million.

Major Governmental Funds

The General Corporate Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The fund balance of the General Corporate Fund increased \$36.4 million to \$38.8 million. The increase was mainly a result of a \$36.9 million transfer in from the water and sewer fund as well as \$6.2 million of proceeds from a bond issue.

The general fund revenues are down approximately \$107,000 from the prior year with significant drops in red speed and building permit revenue mostly offset by increases in property taxes and grant revenue. General fund expenditures are also up approximately \$3.1 million. An increase in highway and streets costs for road projects was the primary cause of the increase. Additionally, the Village has shown a commitment to funding pensions during the fiscal year by distributing an additional \$6.2 million, combined, to the fire and police pension funds in excess of dedicated property tax collections.

Actual revenue fell short of budgeted revenue by \$2.4 million. This was primarily a result of red speed revenue being under budget by about \$1.2 million due to a termination of the contract and sales taxes being under budget by about \$810,000.

Actual expenditures exceeded budget by \$2.3 million. Highway and streets expenditures were \$1.7 million over budget due to more street projects occurring than were anticipated. Civil defense expenditures were about \$460,000 over budget due to the Village's portion for a 911 project not being budgeted for.

Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term financial status information.

Major Proprietary Funds

The Water and Sewer Fund is the only proprietary fund of the Village. Net loss of the fund was \$0.8 million. Actual revenues of the Water and Sewer Fund were under budget by \$0.2 million. Operating expenses were over budget by about \$2.1 million.

Capital assets

By the end of 2020, the Village has compiled a total investment of \$150.9 million (\$102.2 million net of accumulated depreciation) in a broad range of capital assets including police and fire equipment, buildings, Village facilities, water facilities, roads, streets, and sewer lines. Capital asset additions totaled \$1.0 million, which was mostly due to the addition of the vehicles (\$496K), various equipment (\$86k), and construction in progress (\$463k). Total depreciation expense for the year was \$2.4 million. More detailed information about capital assets can be found in note 3 of the basic financial statements.

Long-term debt

At the end of 2020, the Village of Melrose Park had total long-term debt of \$267.3 million. The debt administration discussion covers six main types of debt reported by the Village's financial statements: bonds payable, interest payable on capital appreciation bonds, loans payable, line of credit, capital leases, and net pension liability. Bonds and loans payable decreased due to the payment of scheduled principal maturities during the year. Despite the decrease in bonds and loans payable during the year, General Obligation Bonds, Series 2020 were issued in the amount of \$6.0 million. The bonds were issued to fund capital projects in the Village and will be paid from the general fund. Another significant change in long-term debt was the decrease in business-type bonds payable to zero, as the final payment on the 1998A bond was made for \$1.5 million. Also, there was a large increase in the net OPEB liability of \$11.3 million. More detailed information about long-term debt can be found in Note 3 of the basic financial statements.

Factors Bearing on the Village's Future

The Village is presently marketing the Village and working with developers to encourage new development. The Village is located in an Illinois enterprise zone and has the advantages of several incentive packages to industry that help keep it competitive as compared to other industrial locations. Also, the Village has approved a number of tax increment financing districts within the Village's boundaries. Other factors bearing on the Village's future are real estate tax objections/refunds, increases in water rates charges and inflation.

Contacting the Village's Financial Management

This financial report is designed to provide the Village's citizens, taxpayers and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. If you have questions about this report or would like to request additional information contact the Village of Melrose Park, Attn: Business Office, 1000 North 25th Avenue, Melrose Park, IL 60160.

VILLAGE OF MELROSE PARK, ILLINOIS RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2020

| Amounts reported for governmental activities in the Statement of Activities are different because: Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the costs of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay of \$958,218 exceeded depreciation of \$1,524,645 in the current period. Loss on the disposal of capital assets is reflected only in the Statement of Activities Workers compensation insurance claims that are not expected to be paid within the year are not included in the governmental funds, but are included in the Statement of Activities. The implicit costs of other post employment benefits which exceed contributions made by the Village are a long-term liability. Some of the bonds issued in the prior year are accretion bonds. Accretion of the bonds during the year increases the carrying value of the bonds and will be repaid using future year resources. The current year's accretion is charged to interest expense in the Statement of Activities. (216,647) The issuance of long-term debt is shown as an other financing source in the governmental funds but the principal outstanding is shown as a long-term liability Premiums received and deferred charges from prior refundings, do not require the use of current financial resources, and therefore, are not reported as expenditures in the governmental funds. Amortization of deferred loss on refundings Amortization of premiums Amortization of premiums Amortization of premiums Amortization of the year end are not considered available revenues in the governmental funds. These are the amounts that were not considered available in the current year. In the Statement of Activities, operating expenses are measured by the amounts incurred during the year. However, certain of these items are included in the governmental funds only to the extent that they require the expenditure of current financial resources. Interest payable Re | Net change in fund balances - total governmental funds | | \$ | 41,524,503 |

NOTES TO FINANCIAL STATEMENTS

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Melrose Park, Illinois (the "Village") was incorporated in 1894. The Village is a home-rule municipality, under the 1970 Illinois Constitution, located in Cook County, Illinois. The Village operates under a Mayor-Trustee form of government and provides the following services as authorized by its charter: public safety (police and fire protection), highways and streets, sanitation (water and sewer), health and social services, public improvements, planning and zoning, senior programs, recreation center and general administrative services.

The accounting policies of the Village of Melrose Park, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the Village of Melrose Park. The reporting entity for the Village consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable for the organization. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government.

A legally separate, tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents: (2) The primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization: (3) The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Blended component units, although legally separate entities, are, in substance, part of the government's operations and are reported with similar funds of the primary government. The discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the primary government.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Component Units

The Police Pension Employees Retirement System (PPERS) is established for the Village's police employees. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one pension beneficiary elected by the membership, and two police employees elected by the membership constitute the pension board. The Village and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund and the data for the component unit is included in the government's fiduciary fund financial statements. Complete financial statements for the component unit may be obtained at the entity's administrative offices - Police Pension Board, 1000 North 25th Avenue, Melrose Park, IL 60160.

The Firefighters' Pension Employees Retirement System (FPERS) is established for the Village's firefighters. FPERS functions for the benefit of these employees and is governed by a nine-member pension board. The Village's President, Treasurer, Clerk, Attorney, and Fire Chief; one pension beneficiary elected by the membership; and three fire employees elected by the membership constitute the pension board. The Village and the FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's firefighters and because of the fiduciary nature of such activities. FPERS is reported as a pension trust fund and the data for the component unit is included in the government's fiduciary fund financial statements. Complete financial statements for the component unit may be obtained at the entity's administrative offices - Firefighters' Pension Board, 1000 North 25th Avenue, Melrose Park, IL 60160.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Discretely Presented Component Unit

The Melrose Park Public Library

The government-wide financial statements include The Melrose Park Public Library ("library") as a component unit. The library is a legally separate organization. The board of the library is separate from that of the Village. However, because it is fiscally dependent on the Village for approval of its budget and tax levy and because it poses a financial burden on the Village, the library is presented as a component unit. As a component unit, the library's financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended December 31, 2020. The library does not issue separate financial statements.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund equity, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the Village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

General Fund – accounts for the Village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

Debt Service Fund – used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Village reports the following major enterprise fund:

Water and Sewer Fund – accounts for operations of the water distribution system and sewer system.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Village reports the following nonmajor governmental funds:

Special Revenue Funds — used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Debt Service Funds – used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs.

2003 MFT Bond

In addition, the Village reports the following fund types:

Pension (and other employee benefit) trust funds are used to account for and report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans.

The Pension Trust Funds – account for the activities of the Police and Firefighters' Pension funds, which accumulate resources for pension benefit payments to qualified public safety employees.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows of resources. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows of resources. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the Village is entitled to the resources and the amounts are available. Amounts owed to the Village which are not available are recorded as receivables and deferred inflows of resources. Amounts received prior to the entitlement period are also recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Village reports deferred inflows of resources on its governmental funds balance sheet. Deferred inflows of resources arise from taxes levied in the current year which are for subsequent year's operations. For governmental fund financial statements, deferred inflows of resources arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues arise when resources are received before the Village has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability or deferred inflow of resources is removed from the balance sheet and revenue is recognized.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

The proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Fund are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the Village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Notes to financial statements December 31, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Illinois Statutes authorize the Village to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

Pension funds may also invest in certain non U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, and the Illinois insurance company general and separate accounts, mutual funds meeting certain requirements, equity securities, and corporate bonds meeting certain requirements. Pension funds with net position in excess of \$10,000,000 and an appointed investment adviser may invest an additional portion of its assets in common and preferred stocks and mutual funds, that meet certain requirements. The police pension fund's investment policy allows investments in all of the above listed accounts, but does exclude any repurchase agreements. The firefighters' pension fund allows funds to be invested in any type of security authorized by the Illinois Pension Code.

Additional restrictions may arise from local charters, ordinances, resolutions and grant resolutions.

The Village has adopted an investment policy. That policy follows the state statute for allowable investments.

Interest Rate Risk

The Village's formal investment policy states the portfolio should provide the highest investment return with the maximum security while meeting the daily cash flow demand of the entity and conforming to all state and local statutes. The portfolio should maintain a comparable rate of return during a market or economic environment of stable interest rates. The portfolio performance should be compared to benchmarks with similar maturity, liquidity, and credit quality as the portfolio. Unless matched to a specific cash flow, the Village will not directly invest in securities maturing more than one year from the date of purchase. Reserve funds may be invested in securities exceeding two years if the maturity of such investment are made to coincide as nearly practical with the expected use of funds.

The pensions' investment policies limit their exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

Credit Risk

State Statutes limit the investments in commercial paper to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The Village's and pension's investment policy authorizes investments in any type of security allowed for in Illinois statutes regarding the investment of public funds.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The police pension fund's investment policy limits its exposure to credit risk by primarily investing in securities issued by the United States government and/or its agencies that are implicitly guaranteed by the United States government. Besides investing in securities issued by the United States government, the Fund has no other formal policy for reducing credit risk.

The firefighters' pension fund's investment policy limits its exposure to credit risk by primarily investing in securities issued by the United States government and/or its agencies that are implicitly guaranteed by the United States government. The firefighters' pension fund's investment policy prescribes to the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

Concentration of Credit Risk

The Village's investment policy requires diversification of the investment portfolio to minimize risk of loss resulting from over-concentration in a particular type of security, risk factor, issuer, or maturity. The Village's policy further states that no financial institution shall hold more than 50% of the Village's investment portfolio at the current time of investment placement. The Village operates its investments as an internal investment pool where each fund reports its pro rata share of the investments made by the Village. The police pension investment policy does not have a formal written policy with regards to concentration of credit risk for investments. The fire pension fund's investment policy specifies "the Board of Trustees has consciously diversified the aggregate fund to ensure that adverse or unexpected result will not have an excessively detrimental impact on the entire portfolio."

Custodial Credit Risk - Deposits

The Village's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured with collateralization pledged by the applicable financial institution. Collateral shall be limited to securities of the United States of America or its agencies. The pension fund's investment policies do not require pledging of collateral for all bank balances in excess of federal depository insurance, since flow-through FDIC insurance is available for the pension fund's deposits with financial institutions.

Custodial Credit Risk - Investments

The Village and pension's investment policies require all securities to be held by a third party custodian designated by the Treasurer and evidenced by safekeeping receipts.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

See Note 3 A for further information.

2. Receivables

Property taxes for levy year 2020 attach as an enforceable lien on January 1, 2020, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). The 2020 tax levy, which attached as an enforceable lien on the property as of January 1, 2020, has been recorded as a receivable as of December 31, 2020.

Tax bills for levy year 2020 are prepared by the county and issued on or about February 1, 2021, and July 1, 2021, and are payable in two installments, on or about March 1, 2021, and August 1, 2021, or within 30 days of the tax bills being issued.

The county collects such taxes and remits them periodically. The 2020 property tax levy is recognized as a receivable and unearned revenue in fiscal year 2020, net the allowance for uncollectible. As the taxes become available to finance current expenditures, they are recognized as revenues. At December 31, 2020, the property taxes receivable and unearned revenue consisted of the estimated amount collectible from the 2020 levy.

The property tax receivable is shown net of an allowance for uncollectibles. The allowance is equal to 3.00% (\$516,450) of outstanding property taxes at December 31, 2020.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a nonspendable fund balance account which indicates that they do not constitute expendable available

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

financial resources and, therefore, are not available for appropriation or by a restricted fund balance account, if the funds will ultimately be restricted when the advance is repaid.

3. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

4. Capital Assets

Government-Wide Financial Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$10,000 for general capital assets and \$10,000 for infrastructure assets, and an estimated useful life in excess of 1 year. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their acquisition value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net position. Depreciation and amortization is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

| Buildings | 50 Years |
|-------------------------|---------------|
| Land Improvements | 20 Years |
| Machinery and Equipment | 1 - 10 years |
| Utility System | 1 - 8 Years |
| Infrastructure | 20 - 50 Years |

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

5. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time. The Village reports in the government-wide statements and proprietary fund statements the loss on debt refunding as a deferred outflow of resources which is amortized to interest expense over the shorter of the remaining life of the refunded debt or the life of the new debt. Additionally, the Village reports in the government-wide and proprietary fund statements deferred outflow of resources as related to pensions and OPEB that will be recognized as pension or health care expense in future periods for measurements such as differences between expected and actual experience, changes of assumptions, net difference between projected and actual earnings on pension plan investments, and pension contributions made subsequent to the Measurement Date.

6. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and net pension and total OPEB liabilities.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are deferred and amortized over the life of the issue using the effective interest method. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position.

7. Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time. The Village reports unearned revenues related to property taxes (for both the government-wide and governmental fund financial statements) and revenues that do not meet the availability criterion (for governmental fund financial statements) as deferred inflows of resources. Additionally, the Village reports in the government-wide and proprietary fund statements deferred inflow of resources as related to pensions and OPEB that will be recognized as pension and health care expense in future periods for measurements such as differences between expected and actual experience, changes of assumptions, and net difference between projected and actual earnings on pension plan investments.

9. Equity Classifications

Government-Wide Financial Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position Consists of net positions with constraints placed on their use either by
 external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund equity is classified as fund balance. In accordance with Governmental Accounting Standards Board Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions, the Village classifies governmental fund balance as follows:

a. Nonspendable – Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.

Notes to financial statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- b. Restricted Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority which is the Village Board. Fund balance amounts are committed through a formal action (resolution) of the Village. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village that originally created the commitment.
- d. Assigned Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned through the following; 1) The Board may take official action to assign amounts. 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. Unassigned Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

See Note 3 G for further information.

Fiduciary fund equity is classified as net position held in trust for pension benefits on the statement of fiduciary net position. Various donor restrictions apply, including authorizing and spending trust income, and the Village believes it is in compliance with all significant restrictions.

Notes to financial statements December 31, 2020

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. Budget amounts are as originally adopted by the Board of Trustees. All annual appropriations lapse at fiscal year-end.

Prior to December 31, the Village Comptroller submits to the Village Board a proposed operating budget for the fiscal year commencing January 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to March 31, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year of the general fund and special revenue funds.

No revisions can be made increasing the budget unless funding is available for the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The appropriated budget is prepared by fund, function, and department. The Village Comptroller is authorized to transfer budget amounts between departments within any fund; however, the Village Board must approve revisions that alter the total expenditures of any fund.

B. EXCESS EXPENDITURES OVER APPROPRIATIONS

| Funds | Budgeted Expenditures | | | s Expenditures ver Budget |
|---------|--------------------------|----|------------|------------------------------|
| General | \$ 51,010,308 | \$ | 53,274,283 | \$ 2,263,975 |
| Water | 23.568.292 | | 25.674.193 | 2.105.901 |

The Village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the Village's year-end budget to actual report. Excess expenditures over budget were funded by available fund balance for the General Fund and available net position in the water fund.

Notes to financial statements December 31, 2020

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

C. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2020, the following individual fund held a deficit balance:

| Fund | Amount | Reason |
|----------------------------------|------------|---|
| 25th & North Avenue TIF District | \$ 969,192 | Debt service payments have exceeded the amounts provided from contiguous funds to make semiannual payments. |
| Zenith Opus TIF District | 60,856 | Historically, expenditures exceeded revenues, mainly due to the increased debt service payments belonging to the TIF. Shortfalls are covered by other TIF funds as TIFs are contiguous. |
| Senior First TIF District | 829,407 | Historically, expenditures exceeded revenues, mainly due to the increased debt service payments belonging to the TIF. Shortfalls are covered by other TIF funds as TIFs are contiguous. |

The above fund deficits are anticipated to be funded with future transfers and general tax revenues

The governmental activities had deficit net position of \$159,716,509 as of December 31, 2020. In previous years, the deficit balance was primarily due to outstanding long-term debt that was issued to provide funding for public improvements for the Tax Increment Redevelopment Project Areas (RPA's), net of capital assets of the Village and the operating deficit of the Village as a whole. Certain revenues generated within the RPA's were pledged by the Village to retire the bonds and pay interest on the debt. Since the RPA's bonds are paid from revenues created in the future, this creates a deficit balance which will remain until the outstanding bonds are paid. Additionally, as a result of actuarial valuations prepared in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the Village has reported increased net pension and other postemployment benefits liability balances for the Police Pension, Firefighters' Pension, and Illinois Municipal Retirement Funds over the last several years, which further decreased net position.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The Village's deposits and investments at year end were comprised of the following:

| | Carrying Value | Bank and Investment Balances | Associated Risks |
|--|-------------------|------------------------------------|---|
| Deposits with financial institutions | \$ 52,757,063 | \$ 51,219,218 | Custodial credit risk - deposits |
| Certificates of Deposit | 271,084 | 271,084 | Interest rate risk, Credit risk, Concentration of credit risk, Custodial credit risk - investments |
| Corporate bonds | 7,110,437 | 7,110,437 | Interest rate risk, Credit risk, Concentration of credit risk, Custodial credit risk - investments |
| Money market mutual funds | 6,096,300 | 6,096,300 | Credit risk |
| U.S. treasuries and agency obligations | 6,219,705 | 6,219,705 | Interest rate risk, Concentration of credit risk, Custodial credit risk - investments, Credit risk |
| State and local obligations | 15,702 | 15,702 | Interest rate risk, Credit risk, Concentration of credit risk, Custodial credit risk - investments |
| Insurance company contracts | 7,523,173 | 7,523,173 | Concentration of credit risk, Custodial credit risk - investments |
| Equity mutual funds | 37,366,116 | 28,606,020 | Custodial credit risk - investments |
| Petty cash | 800 | | N/A |
| Total deposits and investments | \$ 117,360,380 | \$ 107,061,639 | |

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

Reconciliation to financial statements:

Per statement of net position
Unrestricted cash and investments \$ 51,380,446

Per statement of net positionfiduciary funds
Pension Trusts cash 7,473,717
Pension Trusts investments 58,506,217

Total Deposits and Investments \$117,360,380

At December 31, 2020, Village deposits of \$534,721 were uninsured and uncollateralized, Firefighters' pension deposits were uninsured and uncollateralized for \$7,557 and Police pension deposits were fully insured and collateralized.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the Village's deposits may not be returned to the Village. As noted above, the pension funds were exposed to Custodial Credit risk for the year ended 2020.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Village's investment policies require all securities to be held by a third party custodian designated by the comptroller and evidenced by safekeeping receipts and written custodian agreement.

As of December 31, 2020, the Village did not hold any assets classified as investments. Investments held by the Police Pension and Fire Pension Funds and related maturities are as follows:

Notes to financial statements December 31, 2020

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2020, the Village's investment in money market mutual funds was rated as follows:

| Investment Type | Composite Ratings |
|---------------------------|-------------------|
| | |
| Money Market Mutual Funds | AAAm |

The investments in the securities of the U.S. government agencies were all rated triple A or Aaa by Standard & Poor's and by Moody's Investors Services.

The Police Pension Fund's investments in the state and local obligations were all rated Aa2 and corporate bonds were all rated BBB or higher by Standard & Poor's or by Moody's Investors Services or were small issues that were unrated or underrated. Unrated and underrated investments are listed in the table below.

| Investment Type | Par Value | Interest Rate | Maturity Date |
|----------------------------------|-----------|---------------|-------------------|
| | | | |
| Federal Home Loan Mortgage Corp. | \$ 8,814 | 3.500% | December 1, 2025 |
| Federal Home Loan Mortgage Corp. | 4,465 | 4.000% | June 1, 2026 |

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

Holding

At December 31, 2020, the Village's investment portfolio (excluding pensions) did not have any concentrations of holdings in excess of 5%.

At December 31, 2020, the Police Pension Fund has over 5% of plan net position, \$1,765,691, invested in various agency securities as indicated in the table located previously within the investment section and various insurance contracts and mutual funds listed below. Agency investments represent a large portion of the portfolio; however, the investments are diversified by maturity date and are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government, they are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation. In accordance with the Pension Fund's investment policy, the Board of Trustees has consciously diversified the aggregate fund to ensure that adverse or unexpected results will not have an excessively detrimental impact on the entire portfolio.

The Police Pension Fund's investment policy has a stated target that 33% of its portfolio be in fixed income securities, 63% in equities, 2% real estate and 2% cash and equivalents. The Police Pension Board has diversified its insurance contract and mutual fund holdings as follows:

Fair Value

| Mass Mutual Insurance Contracts | \$2,879,835 * |
|---|----------------|
| Commonwealth Annuity Insurance Contract | 1,714,091 |
| VOYA Insurance Contract | 1,593,855 |
| John Hancock Insurance Contract | 1,333,075 |
| Jackson National Life Insurance Contract | 2,317 |
| Total Insurance Contracts | \$7,523,173 |
| Vanguard Institutional Index Fund | \$11,837,469 * |
| SPDR S&P 600 Small Cap ETF Fund | 2,063,487 * |
| Schwab International Index Fund | 1,847,928 * |
| Vanguard REIT ETF Fund | 685,333 |
| iShares Edge MSCI Momentum ETF Fund | 293,721 |
| iShares Edge MSCI Quality Factor ETF Fund | 272,862 |
| iShares Edge MSCI ETF Fund | 237,827 |
| iShares Edge MSCI Value ETF Fund | 212,519 |
| Total Equity Mutual Funds | \$17,451,146 |

^{*}Represents over 5% of Fiduciary Net Position

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

At December 31, 2020, the Firefighters' Pension Fund has over 5% of plan net assets, \$1,554,755 invested in various agency securities as indicated in the table within the investment section and various mutual funds listed below. Agency investments represent a large portion of the portfolio; however the investments are diversified by maturity date and as mentioned earlier are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government, they are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation. Although not required by the investment policy, the Pension Fund limits its exposure to custodial credit risk by utilizing an independent third party institution, selected by the Pension Fund, to act as custodian for its securities and collateral.

The Firefighters' Pension Fund's investment policy has a stated target that 32% of its portfolio be in fixed income securities, 6.5% in real estate and 58.5% in equities with the remaining 3% cash and equivalents. The Firefighters' Pension Board has diversified its insurance contracts and mutual fund holdings as follows:

| Holding | Fair Value |
|--|----------------|
| Vanguard Total Stock Market Index Fund | \$14,930,885 * |
| Schwab International Index Fund | 3,769,554 * |
| Vanguard REIT ETF Fund | 680,922 |
| iShares Edge MSCI Momentum Factor ETF Fund | 149,795 |
| iShares Edge MSCI Quality Factor ETF Fund | 142,753 |
| iShares Edge MSCI ETF Fund | 133,011 |
| iShares Edge MSCI Value ETF Fund | 108,050 |
| | |
| Total Equity Mutual Funds | \$19,914,970 |

^{*}Represents over 5% of Fiduciary Net Position

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. In accordance with the investment policies of both Pension Funds, the Funds limit their exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

B. RECEIVABLES

Receivables as of year-end for the government's individual major funds and nonmajor and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

| | General | Debt Service | | Water and | | Nonmajor and | |
|--------------------|---------------|--------------|---------|------------|---------|--------------|--------|
| | Fund | Fund | | Sewer Fund | | Other Funds | |
| Receivables | | | | | | | |
| Property taxes | \$ 16,373,966 | \$ | 518,525 | \$ | - | \$ | - |
| Sales taxes | 4,258,559 | | - | | - | | - |
| State income taxes | - | | - | | - | | - |
| Motor fuel taxes | - | | - | | - | | 84,355 |
| Telecommunication | | | - | | - | | |
| taxes | 98,556 | | - | | - | | - |
| Replacement taxes | 226,238 | | - | | - | | - |
| Utility | 206,955 | | - | | - | | - |
| Accounts | - | | - | 3, | 252,096 | | - |
| Other | 189,977 | | - | | - | | - |
| | | | | | | | |
| Total receivables | \$ 21,354,251 | \$ | 518,525 | \$ 3, | 252,096 | \$ | 84,355 |

All of the receivables on the balance sheet are expected to be collected within one year.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not available and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been earned during the fiscal year, but are received beyond 60 days of year end making them unavailable to liquidate current year liabilities. At the end of the current fiscal year, the various components of deferred inflow of resources reported in the governmental funds were as follows:

| | U | Unavailable | |
|--|----|-------------|--|
| Property taxes receivable for subsequent year - General Fund Property taxes receivable for subsequent year - | \$ | 16,338,845 | |
| Debt Service | | 516,853 | |
| Sales/use taxes- General Fund | | 1,549,944 | |
| Telecommunication taxes- General Fund | | 31,140 | |
| Grants - General Fund | | 100,000 | |
| Other - General Fund | | 319 | |
| | | | |
| Total unavailable revenue | \$ | 18,537,101 | |

Notes to financial statements December 31, 2020

D. INTERFUND RECEIVABLES/PAYABLES

Interfund Receivables/Payables

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

| Receivable Fund | Payable Fund | Amount |
|---|-----------------------------|--------------|
| General | Other Funds | \$ 5,133,481 |
| Debt Service | General | 688,460 |
| Debt Service | Other Funds | 410,992 |
| Other Funds | Debt Service | 71,544 |
| Other Funds | General | 1,028,701 |
| Other Funds | Other Funds | 1,142,276 |
| Water | General | 725,011 |
| Total - Fund Financial State | ments | 9,200,465 |
| Less: Fund Eliminations | | (8,475,454) |
| Total Internal Balances - G Net Position | overnment-Wide Statement of | \$ 725,011 |

The amounts are not expected to be repaid within one year. Therefore, they are reported as advances.

The principal purpose of these interfunds were purchases made with cash from a different fund. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

During the course of operations, numerous transactions occur between individual funds of the Village for the goods provided or services rendered. Those receivables and payables which relate to the Melrose Park Public Library are classified as "Due from Component Units" and "Due to Primary Government". Additionally, the receivables and payables which relate to the Pension Trust Funds are classified as "Due to Police Pension" and "Due from the Village".

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

At December 31, 2020, the discretely presented component unit - Library Fund had a receivable balance of \$114,132 due from the primary government. The Village receives the Library's property taxes and pays certain expenditures; however property tax receipts exceeded those expenditures for the year.

For the statement of net position, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated.

Transfers

The following is a schedule of interfund transfers:

| Fund Transferred To | Fund Transferred From | Amount | Principal Purpose |
|----------------------------|----------------------------------|---------------|--|
| General | Water | \$ 36,880,759 | Foregiveness of interfund payable |
| | | 36,880,759 | |
| Debt Service | General | 735,404 | From general fund for debt service |
| | Nonmajor | 339,520 | From MFT and Lake Street Corridor TIF for debt service |
| | | 1,074,924 | |
| Nonmajor | General | 2,000,000 | From general fund to MFT |
| .,. | | 2,000,000 | |
| Total - Fund Financial Sta | atements | 39,955,683 | |
| Less Fund eliminations | | (3,074,924) | |
| | | (2/2 /2 / | |
| Total Transfers- Governme | ent-Wide Statement of Activities | \$ 36,880,759 | |

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

E. LONG-TERM OBLIGATIONS

Long-term obligations activity for the year ended December 31, 2020 was as follows:

| | Beginning | | | Ending | Due Within |
|---|----------------|--------------|---------------|---------------|-------------------|
| | Balances | Increases | Decreases | Balances | One Year |
| Governmental Activities | | | | | |
| Bonds and Notes Payable | | | | | |

| Totals | \$20,475,000 | \$ 5,107,640 | | | |

On October 8, 2020, General Obligation Bonds, Series 2020, were issued in the amount of \$5,970,000 in order to fund capital projects. The bonds were issued at a premium of \$479,693.

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

Alternative Revenue Debt

Revenue Debt

Business-Type Activities Revenue Debt

The Village has pledged future water revenues, net of specified operating expenses, to repay \$53,965,616 million in revenue bonds and loans issued in 1998 and 1999. Proceeds from the bonds provided financing for the water infrastructure improvements. The bonds and loans are payable solely from water revenues and are payable through 2020. Principal and interest paid for the current year and total customer net revenues were \$2,013,449 and \$24,692,067, respectively. The debt was paid in full as of December 31, 2020.

General Obligation Tax Increment Financing Bonds

Tax increment financing bonds are payable from incremental taxes derived from a separately created tax increment financing district.

The Village has pledged future incremental tax revenues, net of specified operating expenses, to repay \$50,950,000 million in general obligation alternative revenue bonds issued in 2001 through 2019.

Tax increment Financing Bonds at December 31, 2020, consist of the following:

Other Debt Information

Estimated payments of other postemployment benefits liability and net pension liability are not included in the debt service requirement schedules. The other postemployment benefits liability and net pension liability attributable to governmental activities will be liquidated primarily by the General Fund.

There are a number of limitations and restrictions contained in the various bond indentures and loan agreements. The Village believes it is in compliance with all significant limitations and restrictions, including federal arbitrage regulations.

Loans and Line of Credit - Direct Borrowing

The Village obtained loans for general government purposes with a carrying value of \$5,350,164 as of December 31, 2020. The loans' maturity date was originally February 2012 but was extended through January 2021. The interest rate on these notes is 7.00%. Subsequent to year end, the loan was extended through February 29, 2024.

In August of 2014, the Village entered into an agreement to purchase an office building for \$820,000. \$150,000 was paid at the closing and the remaining \$670,000 was financed by means of a Purchase Money Installment Term Loan Note. The note is non-interest bearing and provides for principal payments of \$160,000 per year for a three-year period. The balance related to this portion of the note in the amount of \$450,000 was paid in full in fiscal year 2015. The remaining \$220,000 of principal due on the note will be paid as a monthly credit of \$833.33 offsetting rent due to the Village by the seller for

Notes to financial statements December 31, 2020

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

the lease of office space within the building over a 264-month period. At December 31, 2020, the balance due was \$156,667.

All loans are expected to be paid from the General Fund.

F. FUND BALANCES

Governmental Funds

Governmental fund balances reported on the fund financial statements at December 31, 2020, include the following:

G. COMPONENT UNITS

THE MELROSE PARK PUBLIC LIBRARY

This report contains the Melrose Park Public Library (library), which is included as a component unit. Financial information is presented as a discrete column in the statement of net position and statement of activities.

In addition to the basic financial statements and the preceding notes to financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

a. Basis of Accounting/Measurement Focus

The library follows the modified accrual basis of accounting and the flow of financial resources measurement focus.

b. Deposits and Investments

| | Carrying Value | tement alances | Associated Risks |
|--------------------------------|--------------------------|-----------------------|-------------------------|
| Deposits Petty cash | \$ (797,555) 4,045 | \$ 31,754 4,045 | Custodial credit N/A |
| Total deposits and investments | \$ (793,510) | \$ 35,799 | |

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the library's deposits may not be returned to the library.

The library does not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The library does not have any investments exposed to custodial credit risk.

See Note ID1 for further information on deposit and investment policies.

| Total - Fund Financial Statements | | <u>-</u> | \$ | 114,132 | | | | | | |

e. Receivables as of year-end for the library are \$990,108 for property taxes, net of \$29,040 allowance for uncollectible accounts.

NOTE 4 – OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

Plan Descriptions

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and, the Firefighters' Pension Plan which is also a single-employer pension plan. The benefits, benefit levels, employee contributions, and employer contributions for the Police and Firefighters' Pension Plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. The Police and Firefighters' Pension Plans issue separate reports on the pension plans and are available for inspection at Village Hall. IMRF benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available report that includes financial statements and supplementary information for

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

the plan as a whole, but not for individual employers. The report can be obtained online at www.imrf.org.

Below is aggregate information related to all of the pension plans in total reported by the Village as of and for the year ended December 31, 2020:

| Total Pension Liability | \$ 224,199,736 |
|--------------------------------|-------------------|
| Plan Fiduciary Net Position | 101,398,842 |
| Village's net pension liabilty | 122,800,894 |
| | |
| Deferred Inflows of Resources | \$ 46,519,343 |
| Deferred Outflows of Resources | 10,600,334 |
| Pension Expense | 822,894 |

Illinois Municipal Retirement Fund (IMRF)

General Information about the Pension Plan

All employees (other than those covered by the Police or Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund the IMRF as specified by statute. The employer contribution for the year ended December 31, 2020 was 9.88% of covered payroll. The employer annual required contribution rate for calendar year 2019 was 9.11%.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

At December 31, 2020, the following employees were covered by the benefit terms:

| | <u>IMRF</u> |
|-------------------------------|-------------|
| Retirees and Beneficiaries | 124 |
| Inactive, Non-retired Members | 40 |
| Active Members | <u>119</u> |
| Total | 283 |

Net Pension Liability

The Village's net pension liability for the IMRF plan was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method: Entry Age Normal

Inflation: 3.5% Price Inflation: 2.50%

Salary Increases: 3.35% to 14.25% including inflation

Investment Rate of Return: 7.25%

Retirement Age: Experience-based table of rates that are specific to the type

of eligibility condition. Last updated for the 2017 valuation

pursuant to an experience study of the period 2014-2016.

Mortality: For non-disabled retirees, an IMRF specific mortality table was

used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific morality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality

Table with adjustments to match current IMRF experience.

There were no benefit changes during the year.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Long Term Expected Rate of Return: The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| | | Long Term |
|-------------------------|-------------------|---------------|
| | 1 | Expected Rate |
| Asset Class | Target Allocation | of Return |
| | | |
| Domestic Equity | 37% | 5.00% |
| International Equity | 18% | 6.00% |
| Fixed Income | 28% | 1.30% |
| Real Estate | 9% | 6.20% |
| Alternative Investments | 7% | 2.85-6.95% |
| Cash Equivalents | 1% | 0.70% |
| | 100% | |

Single Discount Rate: A Single Discount Rate of 7.20% was used to measure the total pension liability, the same as the prior valuation. The projection of cash flow used to determine the Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pensions Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Changes in the Net Pension Liability

IMRF:

| | Increase (Decrease) | | | | | |

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Police Pension Plan

General Information about the Pension Plan

As provided for in the Illinois Compiled Statutes, the Police Pension Fund provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 – Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age of 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 – Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police officer shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one half the annual unadjusted percentage increase in the CPI, whichever is less.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the Village's contributions must accumulate to the point where past service cost for the Police Pension Plan is 90% by the year 2040. For the year ended December 31, 2020, the Village's contribution was 76.76% of covered payroll.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

At December 31, 2020, the Police Pension Plan membership consisted of:

| <u>Membership</u> | <u>Participants</u> |
|--|---------------------|
| Retirees and beneficiaries currently receiving benefits | 62 |
| Terminated employees entitled to benefits but not yet receiving them | 8 |
| Current employees | <u>69</u> |
| Total | <u>139</u> |

Net Pension Liability

The Village's net pension liability for the Police Pension Plan was measured as of December 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The actuarial cost method was entry age normal with a level percent of pay.

Actuarial Assumptions: The following actuarial assumptions were used to determine the total pension liability in the December 31, 2020 actuarial valuation and the prior valuation:

| | Current | Prior |
|-------------------------------|------------------|------------------|
| | <u>Valuation</u> | <u>Valuation</u> |
| | | |
| Interest Rate | 7.00% | 7.00% |
| Discount Rate | 7.00% | 7.00% |
| Salary Increases | 3.75%-23.69% | 3.75%-23.69% |
| Projected Increase in Payroll | 3.75% | 3.75% |
| Inflation | 2.25% | 2.25% |

Mortality rates for the December 31, 2020 actuarial valuation are based on PubS-2010(A) adjusted for plan status, collar and Illinois Public Pension Data, as appropriate. The morality improvement scale was updated from SOA Scale MP-2019 projected Fully Generationally to SOA Scale MP-2020 projected Fully Generationally. The impact on the liability was a decrease of \$500,284.

Long Term Expected Rate of Return: The long term expected rate of return on the Plan's investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

each major asset class are summarized in the following table:

| | | Long Term Expected |
|----------------------|-------------------|--------------------|
| Asset | | Rate of |
| Class | Target Allocation | Return |
| | | |
| Domestic Equity | 58% | 3.60 - 4.50% |
| International Equity | 5% | 5.20 - 7.20% |
| Fixed Income | 33% | 0.70 - 3.20% |
| REITs | 2% | 4.00% |
| Cash Equivalents | 2% | 0.00% |
| | 100% | |

Single Discount Rate: A Single Discount Rate of 7.00% was used to measure the total pension liability. The projection of cash flow used to determine the Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The assumed rate on High Quality 20 Year Tax Exempt G.O. Bonds was changed from 2.74% to 2.00% for the current year. The rate has been updated to the current fiscal year based on changes in market conditions as reflected in the Index. The discount rate was unchanged from the prior year. The discount rate is impacted by the change in the underlying High Quality 20 Year Tax Exempt G.O. Bond Rate. In addition, changes made that impact the projection of the Net Position of the fund such as changes in the formal or informal funding policy and actual changes in the net position from one year to the next can impact the discount rate.

Notes to financial statements December 31, 2020

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Firefighters' Pension Plan

General Information about the Pension Plan

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Fund provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Fund as provided for in the Illinois Compiled Statutes.

Tier 1 – Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age of 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 – Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one half the annual unadjusted percentage increase in the CPI, whichever is less.

Participants contribute a fixed percentage of their base salary to the plans. At December 31, 2019, the contribution percentage was 9.46%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village's contributions must accumulate to the point where past service cost for the Firefighters' Pension Plan is 90% by the year 2040. For the year ended December 31, 2020, the Village's contribution was 104.97% of covered payroll.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

At December 31, 2020, the Firefighters' Pension Plan membership consisted of:

| <u>Membership</u> | <u>Participants</u> |
|--|---------------------|
| Retirees and beneficiaries currently receiving benefits | 71 |
| Terminated employees entitled to benefits but not yet receiving them | 3 |
| Current employees | 59 |
| Total | 133 |

Net Pension Liability

The Village's net pension liability for the Firefighters' Pension Plan was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The actuarial cost method was entry age normal with a level percent of pay.

Actuarial Assumptions: The following actuarial assumptions were used to determine the total pension liability in the December 31, 2019 actuarial valuation and the prior valuation:

| | Current | Prior |
|-------------------------------|------------------|------------------|
| | <u>Valuation</u> | <u>Valuation</u> |
| | | |
| Interest Rate | 7.00% | 7.00% |
| Discount Rate | 7.00% | 7.00% |
| Salary Increases | 3.75%-23.69% | 3.75%-23.69% |
| Projected Increase in Payroll | 3.25% | 3.25% |
| Inflation | 2.25% | 2.25% |

Mortality rates for the December 31, 2020 actuarial valuation are based on the assumption study for Illinois Firefighters 2020 prepared by Lauterbach & Amen, LLP. The table combines observed experience of Illinois Firefighters with the RP-2019 mortality table. Mortality improvements have been made to 5 years past the valuation date.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Long Term Expected Rate of Return: The long term expected rate of return on the Plan's investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | Long Term |
|----------------------|-------------------|---------------|
| | | Expected Rate |
| Asset Class_ | Target Allocation | of Return |
| | | |
| Domestic Equity | 48.75% | 3.60 - 4.50% |
| International Equity | 9.75% | 5.20 - 7.20% |
| Fixed Income | 32% | 0.70 - 3.20% |
| REITs | 6.50% | 4.00% |
| Cash Equivalents | 3% | 0.00% |
| | 100% | |

Single Discount Rate: A Single Discount Rate of 7.00% was used to measure the total pension liability. The projection of cash flow used to determine the Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The assumed rate on High Quality 20 Year Tax Exempt G.O. Bonds was changed from 2.74% to 2.12% for the current year. The rate has been updated to the current fiscal year based on changes in market conditions as reflected in the Index. The discount rate was unchanged from the prior year. The discount rate is impacted by the change in the underlying High Quality 20 Year Tax Exempt G.O. Bond Rate. In addition, changes made that impact the projection of the Net Position of the fund such as changes in the formal or informal funding policy and actual changes in the net position from one year to the next can impact the discount rate.

| 2024 | (819,915) |
| 2025 | (270,919) |
| Thereafter | - |

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

B. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

Self-Insurance

For health and workers compensation claims, the uninsured risk of loss is \$100,000 per incident and 125% in the aggregate for a policy year. The Village has purchased commercial insurance for claims in excess of those amounts. Settled claims have not exceeded the commercial coverage in any of the past three years.

All funds of the Village participate in the risk management program. Costs are allocated by function of participating employees. The below liability includes \$61,530 of the component unit-library, \$223,089 of the business-type activity and \$1,811,533 of the governmental activities.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable. Liabilities include an amount for claims that have been incurred but not reported. The Village does not allocate overhead costs or other non-incremental costs to the claims liability.

Claims Liability

| | C | urrent Year | Prior Year |
|--|----|-------------|-----------------|
| Unpaid claims - Beginning of Year | \$ | 1,761,266 | \$ 1,687,764 |
| Current year claims and changes in estimates | | 8,411,403 | 6,213,259 |
| Claims payments | | (8,076,517) | (6,139,757) |
| Unpaid claims - End of Year | \$ | 2,096,152 | \$ 1,761,266 |

C. COMMITMENTS AND CONTINGENCIES

From time to time, the Village is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Village's financial position or results of operations. The Firefighters' Pension Fund is not currently involved with any lawsuits.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

The Police Pension Fund is currently involved with a disability benefits litigation. Although the outcome of this claim is presently not determinable, the Pension Fund believes that the resolution of this matter will not have an adverse effect on the financial condition of the Pension Fund.

The Village has active construction projects as of December 31, 2020. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the Village's operations and financial position cannot be determined.

D. OTHER POSTEMPLOYMENT BENEFITS

The Village administers a single-employer defined benefit healthcare plan. The plan provides for eligible retirees and their spouses through the Village's plan which covers both active and retired members. Benefit provisions are established through personnel policy guidelines.

Summary of Significant Accounting Policies

Basis of Accounting. The plan's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Stand-alone plan financial statements have not been issued.

Method Used to Value Investments. Investments are reported at fair value. However, since the plan is currently funded as benefits or premiums occur, there are currently no assets in the plan.

Plan Contribution Information

Member of the plan consisted of the following at, the date of the latest actuarial valuation:

| Retirees and beneficiaries receiving benefits | 164 |
|---|-----|
| Terminated plan members entitled to but not | |
| yet receiving benefits | - |
| Current employees | 263 |
| | |
| Total | 427 |
| Number of participating employers | 1 |

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Contribution requirements are established through personnel policy guidelines and may be amended by the action of the governing body. The Village provides 100 percent coverage for health, vision, and dental insurance for all retirees. The monthly cost to the Village ranges from \$648 up to \$2,559 per participant up to the age of 65. After the age of 65, the Village's insurance becomes secondary to Medicare and the cost to the Village is reduced to \$492 (\$984 with spousal coverage) per month.

Discount Rate

The discount rate used to measure the total OPEB liability as of December 31, 2020 was 2.15%, which was a change from the discount rate of 2.74% that was used as of December 31, 2019. Because the plan benefits are financed on a pay-as-you-go basis, the single discount rate is based on a tax-exempt municipal bond rate index of 20-year general obligations bonds with an average AA credit rating as of the measurement date.

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

Changes in Total OPEB Liability

| | Total OPEB Liability |

Sensitivity of the Village's Total OPEB Liability to Changes in the Discount Rate

The following presents the Village's total OPEB liability, as well as what the Village's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.15%) or one percentage point higher (3.15%) than the current rate:

| | Current | | | |
|----------------------|------------------------|-----------------------|------------------------|--|
| | 1% Decrease (1.15%) | Discount Rate (2.15%) | 1% Increase (3.15%) | |
| Total OPEB Liability | \$ 129,311,415 | \$ 108,762,440 | \$ 92,697,842 | |

Sensitivity of the Village's Total OPEB Liability to Changes in the Healthcare Costs Trend Rates

The following presents the Village's total OPEB liability, as well as what the Village's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (2.00%) or one percentage point higher (4.00%) than the current rate:

| | Health Care | | | |
|----------------------|------------------------|----------------------------|------------------------|--|
| | 1% Decrease (2.00%) | Cost Trend Rate (3.00%) | 1% Increase (4.00%) | |
| Total OPEB Liability | \$ 90,965,215 | \$ 108,762,440 | \$ 132,097,649 | |

Notes to financial statements December 31, 2020

NOTE 4 – OTHER INFORMATION (continued)

OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended December 31, 2020, the Village recognized OPEB expense of \$7,974,690. At December 31, 2020, the Village reported the following deferred outflows of resources and deferred inflows related to OPEB.

| | Deferred | Deferred |
|---|------------------|-------------------|
| | Outflow | Inflow |
| Difference between expected and actual experience | \$ 481,101 | \$ (4,810,356) |
| Changes in assumptions | 13,687,136 | (3,468,112) |
| Difference Between Expected and Actual Investment | - | - |
| Earnings on OPEB Assets | | |
| TOTALS | \$ 14,168,237 | \$ (8,278,468) |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ende | ed | |
|-----------|-------|-------------|
| Decembe | er 31 | |
| | 2021 | \$1,810,783 |
| | 2022 | 1,752,723 |
| | 2023 | 1,887,117 |
| | 2024 | 439,146 |
| | 2025 | |
| TOTALS | | \$5,889,769 |

E. TAX INCREMENT FINANCING DISTRICT

The Village of Melrose Park has established several Tax Increment Redevelopment Project Areas (RPA's) to encourage redevelopment of certain sites for more market oriented commercial uses of the properties that will enhance their value and improve their contributions to the Village and its surrounding areas. As part of the redevelopment plans, the Village has made significant improvements to utilities, public parking, intersections, and traffic signalization, streets and landscaping. The redevelopment plans also include site preparation, land acquisition and assembly, and demolition/clearance.

Construction and development in the RPA's were the responsibility of developers and are substantially complete. To entice development of the areas, the Village created tax increment financing (TIF) districts to finance public improvements made within the RPA's.

Several funds have been established to record the revenues generated in the RPA's that relate directly to servicing the debt issued to make public improvements in the RPA's.

Notes to financial statements December 31, 2020

NOTE 5 – TAX REBATES

The Village has entered into sales tax rebate agreements in order to attract new retailers and restaurants. The agreements are pursuant to Section 8-11-20 of the Illinois Municipal Code (65 ILCS 5/8-11-20) and have been approved by the Village Board.

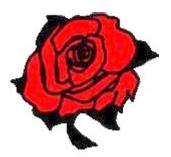

To be eligible for the rebate, the businesses must open locations within the Village's boundaries and submit sales tax information to the Village. The specific terms of the agreements vary, however, in general, they provide for the Village to rebate 0.5-60% of the sales tax generated by the locations within Melrose Park back to the businesses typically on a quarterly basis. Some of the agreements are subject to conditions such as the rebate not being measured until a certain threshold of sales is met. Total tax abatements were \$2,425,096.

The largest abatement provides for annual abatements in excess of \$500,000. One of these agreements calls for a rebate of 50% of all Municipal Sales Taxes that the Village receives from the location in each calendar year during the repayment period (20 years commencing thirty days after the first certificate of occupancy is issued by the Village). Sales tax rebates under this agreement totaled \$1,452,924.

NOTE 6 – PRIOR PERIOD ADJUSTMENT

The Village adjusted beginning net position of governmental activities to reflect a net increase in capital assets as a result of errors in the construction in progress balances in the prior year.

The Village's contributions are distributed on a pay-as-you-go basis to finance annual benefits charged to the Village.

Notes to required supplementary information December 31, 2020

BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. Budget amounts are as originally adopted by the Board of Trustees. All annual appropriations lapse as fiscal year end.

Prior to December 31, the Village Comptroller submits to the Village Board a proposed budget for the fiscal year commencing January 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to December 31, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year of the General Fund and Special Revenue Funds.

The Village is authorized to change budgeted amounts within any fund; however, revision increasing total fund expenditures must be approved by two-thirds of the members of the Village Board. No revisions can be made increasing the budget unless funding is available to the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The appropriated budget is prepared by fund, function, and department. The Village Comptroller is authorized to transfer budget amount between departments within any fund; however, the Village Board must approve revisions that alter the total expenditures of any fund. The budget was amended during the year by action of the Village Board.

The Village's General Fund is presented as required supplementary information.

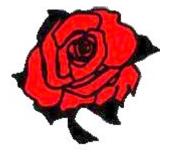

EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the Fiscal Year ended December 31, 2020, expenditures exceeded appropriations in the following fund:

| Funds | Budgeted | | Actual | Exces | s Expenditures |
|---------|---------------------|----|-------------|-------|----------------|
| ruilus | <u>Expenditures</u> | E | kpenditures | 0 | ver Budget |
| General | \$ 51,010,308 | \$ | 53,274,283 | \$ | 2,263,975 |
| Water | 23,568,292 | | 25,674,193 | | 2,105,901 |

The Village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the Village's yearend budget to actual report. Excess expenditures over budget were funded by available fund balance for the General Fund and available net position in the water fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

February 1, 2022

The Honorable Mayor Members of the Board of Trustees Village of Melrose Park, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit each major fund, and the aggregate remaining fund information of the Village of Melrose Park, Illinois, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated February 1, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. According, we do not express an opinion on the effectiveness of the Village's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
