

If you need an ambulance, PLEASE DIAL 9-1-1.

Paramedics trained in various advanced life support techniques operate the two Melrose Park ambulances.

Ambulance fees are \$850.00 for basic life support and \$2,575 for advanced life support services. We bill your insurance company.

Our full-time staff of highly trained contract paramedics and emergency medical technicians have three fully equipped ALS ambulance units (2 frontline and 1 reserve) available.

These vehicles allow emergency services personnel to provide prompt, effective, and professional first-response services to Melrose Park residents on three rotating, 24-hour shifts.

These state-licensed ambulances and responders are associated with the Loyola Emergency Medical System. The Melrose Park Fire Department maintains a strong affiliation with Gottlieb Hospital's emergency department. Cooperation within this hospital system ensures consistent monitoring of our services.

In addition, these local hospitals provide the Melrose Park Fire Department with monthly continuing education classes focused on improving the department's emergency medical skills and services.

A \$25 fee applies to each copy of a fire report or an ambulance report.

No one, and we stress no one, is denied ambulance service for lack of financial resources.
